

Due to agile integration into your development teams, our proven testing experts facilitate the competitive edge of your IT processes and software applications regarding efficiency, automation and reliability.

SDS PROFESSIONAL TESTING particularly addresses organisations from the most dynamic industries of our time. In view of the future competitiveness, we implement superior test and test automation solutions which are completely integrated into agile software developments. Thus, our customers benefit from a significant improvement in the quality of their systems and the sustainable reduction of production risks.

SCOPE OF SERVICES

- Professional software testing and test automation services ranging from integration to user acceptance tests
- Functional and non-functional testing (e.g. performance and load testing, etc.)
- Creation of agile test and test automation strategies according to ISTQB
- Pre-built & custom test automation framework
- Implementation and integration of test automation into the CI/CD pipeline
- Test data and configuration management
- Migration tests of legacy systems
- Test reports & analytics based on customer KPIs

BUSINESS VALUES

- Short time to market through agile test processes
- Continuous improvement of software quality
- Reduction of production errors by up to 50%
- Cost savings of up to 30%
- Lean test management for optimum control of resources, processes and technologies
- Ongoing feedback on software quality
